Lifecycle Pic

Good Morning My name is Sammy Salmon. I want to tell you about my exciting life as a salmon. What an adventure! It all started in a cold Oregon river. My mother laid her eggs there and my siblings and I hatched from the eggs. We lived in the river for about a year. All could think about was the smell and taste of the big blue salty ocean. I swam for miles and miles dreaming about my new life in the open sea. As the miles went on, my body changed so that I could adapt to the new salty water of the ocean. But the ocean was wild and dangerous! There were many larger animals that tried to eat me and my siblings. But I to survive for seven full years. My instinct told me that it was times to head back to river that I once called home. Using my strong sense of smell, I swam back to the exact place where I was first born. By time I made it back to the river, I grown to almost six feet long and over 125 pounds.
