

Engagement and Opportunities to Respond

Actively engage all students in learning using technology! Students are actively engaged if they are saying, writing, or doing.

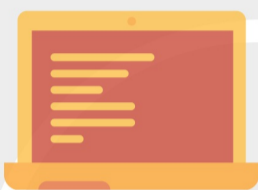

Nearpod

Let your slideshows become interactive with periodic quizzes, discussions, etc. to actively engage students.

Canvas

Include discussions, assignments, quizzes and collaboration into your lesson plan using this learning management system.

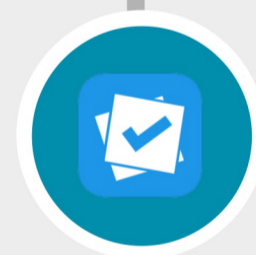

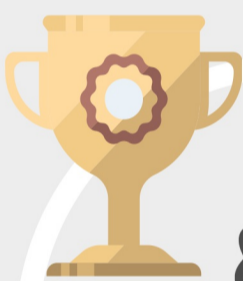

Zaption

Create and deliver interactive video lessons with text, image, drawings, and multiple choice, check boxes, and free response questions.

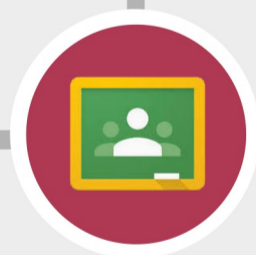

Quizizz & Kahoot

Gather quick formative data in an interactive multiple choice competitive game, using any devices with internet.

Plickers

Gather quick formative data from each student with the use of one iPhone/iPad camera and no student devices.

Google Classroom

Include discussions, assignments, and collaboration into your lesson plan.

Today's Meet

Create a private online chat where students can send in questions, comments or answers to questions during instruction.

Socrative

Use real time questioning during class to engage your students.
