TESTING TIPS

HERE ARE SOME HELPFUL TIPS FOR PROCTORING THE SAGE TEST.

Check student names on the roster with Skyward ASAP. It takes a couple days to add a new name.

Cut login tickets before the day of the test.

Collect student login tickets before the end of the period and keep in the provided envelope.

Log into the SAGE testing environment.

Test the headphone volume before starting the test.

Pass out student earbuds before testing, and collect them after testing. Put them in a baggie with their name on it for the remaining testing days.

When in trouble, call your Ed Tech, Field Tech or Testing Administrator!
